

Homelessness

In September 2024, 164,040 children were homeless in temporary accommodation – a 15% rise in a year.

Children in temporary accommodation experience life-changing challenges:

▶ Lack of space and privacy

▶ Stress and anxiety

▶ Damaged or missing possessions

▶ Loss of friendships and community

▶ Limited access to cooking and washing facilities

Be curious about children's experiences and speak to your safeguarding lead if you have concerns.
